III. 1 What did you like about the class?

I liked getting into programming and seeing what web development looks like.

the professor is very knowledgeable and patient and always willing to help

The material and visual video.

Carl made the class fun and interesting, always returned to the relevance of the course in our own lives and work.

The professor engaged all the students with meaningful discussions and took the time to go over course material that wasn't clear to the students.

The cheerful professor Burnett with lots of patients for attending to all for their needs and questions. Also, the materials and subject.

I gained the basic introduction to HTML5 and CSS that I was looking for.

Well formatted, good powerpoint presentations, easy to follow the code with the instructors

Instructor was very knowledgeable and helpful

III. 2   What didn't you like about the class?

The class moved really fast and I struggled to retain all the information.

it goes way to fast to be able to keep up

Rushing through content, and not covering it thoroughly, because of too much time spent correcting individual student issues with Dreamweaver.

N/A

As someone with no programming or web experience (other than as a user) I had my inexperience with Dreamweaver caused me additional challenges both with inputting code and file storage.

fast pace,

Needed more time to debug site.

III. 3   What improvements would you suggest?

Have download instructions for the programs so students can download them at home.

give a little more time to finish coding

praticing with CSS

A teacher's assistant is needed to assist with student issues.

N/A
I would have liked if the HTML5 and CSS3 were different courses. not combined. too much to learn!
For students with no background (like me) it would have been helpful to suggest reviewing some on-line introductions to HTML & CSS such as those links included in the "Additional Support Exercises"
It is fine

III. 4   What other classes would you like to see offered?

An extension on this one.
more in depth CSS3
n/a
N/A
Ruby

III. 5   What is (are) your reason(s) for taking this class?

I want to be a full-stack web developer.
learn coding professionally
Improve my career skills
To learn more about front-end web development as the webmaster for 3 websites, to earn the front-end web development certificate.
To acquire the skills to design a webpage
hope I can complete the certification! Thank you Professor Burnett.
I will be creating basic websites as a hobby in support of various activities and clubs so I wanted a better understanding of HTML5 & CSS
Attemptiong to get Certification Front End Web Dev

IV. 1   How did you find out about this class?
